Section C: Suggested Reviewers

Obtaining the two referee reports necessary for DHET subsidy is an onerous task.

Please provide the names and contact details of three qualified South African and/or international referees. Referees should have a PhD and expertise in the relevant area of Physics. Do not recommend referees who have co-authored a work with any of the authors on the manuscript within the past five (5) years. Manuscripts without three recommended referees may be subject to desk rejection.

Section D: Declaration of Novelty and Use of AI

How is this submitted manuscript scientifically novel?

The analysis contributes directly to defining the preliminary long-term stability uncertainty in the 2023 data collected by the ATLAS detector.

Please see the Author Guidelines for the AI use policy.

How was AI used in the generation of this manuscript?

It was mainly to refine grammar and to improve consistency of the technical languages used across the sections.
