Section C: Suggested Reviewers

Obtaining the two referee reports necessary for DHET subsidy is an onerous task.

Please provide the names and contact details of three qualified South African and/or international referees. Referees should have a PhD and expertise in the relevant area of Physics. Do not recommend referees who have co-authored a work with any of the authors on the manuscript within the past five (5) years. Manuscripts without three recommended referees may be subject to desk rejection.

Suggested Reviewers in your Research Field (Both local & international)		
	Reviewer Names & Surname	Reviewer's Email Address(es)

Section D: Declaration of Novelty and Use of AI

How is this submitted manuscript scientifically novel?

The article investigates the anomaly that arises if the "wrong" expression for the Al mole fraction x of $\text{Al}_x\text{Ga}_{1-x}\text{As}$ is used to determine the refractive indexes of a thin film of $\text{Al}_x\text{Ga}_{1-x}\text{As}$, as the calculation yields different refractive indexes than the correct expression, but yields the same epilayer thickness to the 2nd decimal place.

Please see the Author Guidelines for the AI use policy.

How was AI used in the generation of this manuscript?

AI was not used in the generation of this manuscript.
