Obtaining the two referee reports necessary for DHET subsidy is an onerous task.

Please provide the names and contact details of three qualified South African and/or international referees. Referees should have a PhD and expertise in the relevant area of Physics. Do not recommend referees who have co-authored a work with any of the authors on the manuscript within the past five (5) years. Manuscripts without three recommended referees may be subject to desk rejection.

Section D: Declaration of Novelty and Use of AI

How is this submitted manuscript scientifically novel?

This manuscript was able to mitigate the known degeneracy between BAO and Pantheon+ SH0ES within flat standard cosmology model.

Furthermore, this manuscript presents a new observational evaluation of the proposed $f(Q)$ -gravity model.

Also this manuscript was able to show that for this model in hand its derivative with respect to Q degeneracy emerges.

Please see the Author Guidelines for the AI use policy.

How was AI used in the generation of this manuscript?

Improvement of grammar, formality and flow

To adjust the table to fit inside the required latex margins

To fix some latex errors
